FAILURE OF N. SILVERMAN.-It is not a pleasant duty to record the failure of any of our business men, and the troubles arising out of it; but as such things do occur and the public wish to know the particulars, we give the facts of this failure, as nearly as we can, from the infor

mation in our possession.

N. Silverman had been one of the dry goods merchants of Troy for a little more than three years past-baving been in White Cloud for a comple of years before coming here. The hard times struck him as heavily as the other merchants, but he had not the bottom to weather the storm, which broke upon him suddenly, (so to outsiders. at least,) on last Saturday evening. Late that evening, it was whispered that creditors from abroad were about closing in on him. One of our lawyers, who had a considerable amount of claims against him, got out an attachment against him on one of thom, for \$150, and seized goods in his store. Other attachments were being got it; but before they could be served, Silverman mi assignment of his entire effects to Charles E. Brown, for the benefit of his creditors, which cut out all proceedings in that direction.

Mr. Silverman has notes in the bank, amounting in the aggregate to over \$1,000, upon which several of our oitizens are endorsers. Labar Jackson, of Wolf River Town, ship, was on one of his notes for \$50; and having got wind of the impending difficulty, he had come to town to secure himself. Finding that he was too late, he swere out a warrrant for the arrest of Silverman, for obtaining his signature to the note under false pretences—asserting that Silverman had assured him that he owed no debts except a few han dred dollars about here. Silverman was arrested Saturday night, and put into jail, where he remained until Monday afternoon, when he had a hearing before Esquire Soper. Upon the evidence, he was held in \$1,000 bail, to appear at the next term of the District Court. He spent Monday night in jull, but on Tuesday, merchants from St. Joseph succeeded in procuring the mil, and he was set at liberty.

Mr. Silverman's liabilities are about \$8,000, while his assets will probably not foot up half that amount, especially at forced sale. There are various opinions relative to this affair, and many rumors, but we know nothing except what has come out, in the local proceedings, Silverman says be has paid off the Jackson note, and will soon pay up his other obligations, and come out with flying colors again. We hope he may do so. It is better than sacrificing his stock at forced sale.

COUNTY BOARD.-The new County Buard organize Monday afternoon, by the election of Fred. Harpster as Chairmar. The selection is a good one. Mr. Harpster does not claim to have inspected all the Commercial Colleges in the country, as his illustrious prodecessor does; but he doesn't have to run out his tongue, and grunt an-

sweat, when he writes his name.

The Board was very busy Monday evening, Tuesday, and late Tuesday night. They adjourned Wednesday morning, to meet the first Monday in February. Previous to the adjournment, A. Larzelere filed his written protest against giving the County printing to the

Chief. He protested against the very measure that be was the first to urge—only it happened to be a different paper from the one he was striking for. As there will robably be some squealing on this subject, we may here after take occasion to give a full history of the whole

The lecture Monday night, by Bro. Kerr, was good, and right to the point. The supper was splendid, without any exceptions whatever. It was acknowledged by those pres-

cut, that it was the best supper and best festival they had seen in Severance. By the way, the supper was get up by Mrs. A. M. Kendall, and would have been a credit to a E. L. HOLMES, Secretary. How the Board Organized .- An amusing little episode eccurred at the organization of the County Board, on Munday, which tickled the spectators hugely. It was substantially like this, as one of them relates it to us :

"Well, let us proceed to organize," said one of the mem betwa whereupen Capt. Larrelete bonaced up, and said: I neminate Cyrus Leland, Jr., for Chairman of the Board.

Severance Items. On Monday evening of last week, our usually quiet town was thrown into considerable excitement, by appearance of a person who went from house to house, nanding something to est; to others, his plea was that he wanted washing done. He went so far as to enter ome houses where there was nobody but children, and usulting them, and taking on at a great rate. One of ou citizens swore out a warrant, and he was brought before Justice Campbell, who, after a careful examination of the case, fined him \$25 and costs. As said tramp (we suppress his name, for he may have friends,) did not have to have a "rag baby" of that size, he now vegetates at the expense of the County.

The Swiss Bell Ringers were well attended. Every one speaks highly of the performance. On Friday night, there was a minstrel troupe perform ed at the hall. Quite a number of our people are lamenting the less of their quarters. There were only fifteen in the troupe, and still they were not happy. You see, Mr. Chief, that we are well supplied with entertainments.

The past week has been quite prolific of dances. Our young men pronounce country mud as pretty "thin." There has been considerable talk about incorporatin our town; but after canvassing the matter pretty thou oughly, and getting almost ready to proceed to business

the requisite corporosity to serve as Alderman. This pens our arder somewhat, but still our faith is strong. We'll endeavor to faithfully report our success. It is with regret that we state the continued illness o Mr. Mawherter. There seems to be a good deal of sickness in this vicinity, at present; several of our citizens

being called to attend relations who are ill. There has lately been opened a coal bank, south o town, which yields a quality of coal equalling either Bevier or Richmond. The owner is hauling it to town, and

if all reports are true, has got a regular bonanza. Only one drunk before the Police Court, this week ... We can report times getting more lively, and all things continue to wag well on this "o-casson."

Who Has Mr Gun? On Sunday night, October 24th, 1875, a man who said he lived between Robinson and White Cloud, encamped a short distance east of Troy, when a colored man came along on horseback, carrying a shot-gun. The gentleman was going to Missouri for apples and cabbage, and as he was not acquainted with the road, the colored man con sented to pilot him; and taking the saddle from his horse, he put that and the gun in the wagon, and getting in him-self, led his horse. It rained during the night, causing them to halt for awhile. About 6 o'clock Monday morn ing, they arrived at Elwood, where the colored man sadd his horse, agreeing to meet the other at the St. Joseph market. The gon was left in the wagon, and the gentleman has not been seen by me since. The stock of the gun was broken. (For the Chief.) STAY WHERE YOU ARE.

An old lawyer once said to a student : "When the facts farmers to gramble—first at taxes, nort at prices, then at farmers to grander and a control of the like this: "Mr. our winters. We read in our papers about like this: "Mr. E.—, tired of feeding in the Winter all that he has made in the Summer, is going to California." Then we have a letter from Mr. E., in California, saying-glorious weather, boys bathleg in the ecean, orange blossoms, green peas, strawberries, &c., &c. Yow, every person is look ng out for some Land of Canage, some ate of Texas, California, Brazil, Central America, and climate or I exact semi-tropical countries, has always been the same. Why are they not densely populated, like the countries lying further north! Take your map of the Western Continent, and by looking carefully, you will find that most of the wealth, enterprise, large cities, and railroads, are in a land over which heavy snow-storms blow-the land being locked up at least three months in the year by frost. There are more well to do farmers in the year by frost. There are more well-to-do farmers in the Northern tier of States than in the Southern. The reason is obvious. In the North the farmer is compelled to look ahead, and provide for the rigor of his Winter, thereby creating g habit of thrift. In the South and the Pacific States, there is no incentive to such exertion among them you will find many who are very poor, is deed, air ;" and the general lack of tidiness about their homes, shows a lamentable desire to put of until to-mor ow what the Northern man does to-day. As a consemence, there are more indigent persons in a warm cli te than in a cold. My advice to the farmers of Doniphan County is. Stay where you are. The little cold yo have here is good for your health. Stock of all kinds is healthy. With their nine months Summer in Texas, they can't raise but one crop. Our corn grows as fast in one month as theirs does in two. We have the best upland prairie in the world. It is well watered, and a first-rate market for all we can raise. Let us try and raise more. thereby making our own inflation. There is abupdanmoney for us. Keep stock enough to eat up our straw and other roughness. Let us cease grumbling about taxes and middle-men, and thank Go living in this glorious old Union; and by using ecot there is no good reason why we cannot make enough to pay our debts—the printer included—and lay up something for the "regulation" rainy day.

Strange, But True It is natural for people suffering with Consumption, Coughs, Severe Colds, or any other disease of the Throat and Lungs, to put off from day to day buying an article that they know has cured their neighbor, friend, or relative, yet they have no faith in it until it is too late. If you will go to your Druggist, W. P. Russell, and get a bottle of Boschen's Gennay Strup, your immediate cure is as certain as you live; it has lately been introduced i this country from Germany. Sample bottles of this med-icine can be obtained for 10 cents to try its superior virtue. Regular size 75 cents. Try it, two doses will relieve any

ST. LOUIS GLOBE-DEMOCRAT FOR 1876. It affords much pleasure to the proprietors of the Globe-Democrat to be able to announce that their efforts to fur-nish to the people of the West a great representative comprehension of what the people want—a paper contain ing the news of the world—domestic, foreign, and local, emplete resume of interesting events, called from overs part of the habitable globe, together with a clear and can lid expression of opinion upon all the great questions which, from time to time, claim the attention of intelli gent people. No expense has been spared to distance most iters in furnishing the news, its corps of telegraph and writing correspondents being the most extensive

For 1876, the Globe-Democrat respectfully invites a continuance of that generous patronage with which it has heretofore been honored, promising its best efforts to make it unrivaled in every department. The news of the week will be cendensed and carefully re-written, so as to put the largest amount of information into the smallmount of space, thereby giving an opportunity to devote a large share of the weekly pages to family and literary reading. One entire page will be given to market reports mercial news in which will be reflected all the eading and important events in the world of trade. The Globe Democrat is, as it has always been and will continu o be, a Republican paper, fearlessly devoted to a bold advocacy of the cardinal principles of the party. While t will always be in the front rank in the support of an honest party policy, it will reserve the right as it is its duty and the duty of every newspapor-to oppose every measure not in unison with Republican principles, although it may emanate from men acknowled a nee to the Republican party.

We desire to make the appoundment that, in order to recommodate the unparalleled increase of patronage with which the Globe Democrat has been encouraged, the proprieters have found it necessary to have built, at enormous cost, two Hoe perfecting printing presses, which are now completed and ready for use. For onths the subscription list has grown so rapidly that the old presses in use were found to be absolutely inade quate for printing the mammeth editions of the paper and the purchases referred to were indispensable. It has een found that as the circulation of the paper increase so does the demand for more news, and to meet this enlarged demand eight more columns will be added to the Weekly Globe Democrat on or before the 1st of January, in creasing the number of columns in the paper to Afty-siz It can be claimed, without beasting, that the increase size of the Globe-Democrat, together with the additions newspaper west of the Alleghanies, and the peer of any volves a very large expense, and a slight increase in the thecription price of the Westly will be necessary. The increase, however, is only twenty-five cents, a sum so small and inconsiderable as to be almost inadequate b compensate for the additional reading matter furnis new schedule of prices has been arranged, and as the commencement of a new year is at hand, the atte subscribers and those getting up clubs is especially di
